

**Removes The Old Dead Skin Cells, Own The New One,  
...Provides Healthy Skin.**

Scrubs are used to remove dirt skin interior. Through friction on the skin, it can remove the cuticles and dead skin caused by aging squamous. The main role of cuticle layer is to protect the skin, reduce external attack. If the cuticle layer too thin or thick will affect the skin health. So make sure your cuticle metabolism is very important. Generally, if the cuticle layer is too thick it will make the skin look rough, dark, non – elastic, acne and other., It will form a barrier to absorb the skin care products into the cells. If the cuticle layer too thin may cause redness and other symptom. Therefore, users with dry and allergy skin must be careful with regular scrubs on the market. After thorough research and hard work, 'Skin Guard' expert researchers had successfully produce scrub that can remove cuticle cells, dead skin, blackheads and suitable for all type of skin – **Natural Beauty Facial Scrub.**
