Women and men believe that make up can increase self – confidence, look better and a better image. Unfortunately, toxic cosmetics will damage the skin internally. Many women skin harm, be rough and dreary when apply cosmetics for long time since some will look pale when no makeup. All this is caused by uncomplete makeup remove, heavy metals and toxic leftovers on skin or apply products processed from petroleum by – products and cause secondary harmful. After thorough and hard work, 'Skin Guard' expert researchers had successfully produce a world class product that can remove the make up completely and will not harm the skin – **Natural Make Up Remover Cream.**

This product is completely used natural raw material that is soft and precious, which has a very high solubility that can remove and dilute the make up completely, especially mascara. Beside the stunning effect, it is also non – greasy, will not clog pores, inflamed eyes and face, suitable for all type of skin and used to remove excess oil, dirt and Anti – UV leftover. The special thing for this product is after remove the make up, is no need to rinse off the face and it can be used as a moisturizing product.

Direction: Squeeze the appropriate quantity on cotton, gently dab and massage all over the face, thus can melt and clean up the make up thoroughly, quick and easy. If necessary, rinse with water.

Tip: Many Make Up Remover in the market usually use mineral oil and synthetic fats. Long – term use will cause skin problems. For women who apply make up must be careful when choosing, if not, not only will harm the skin, but also will suffer with huge losses.
