OLIGO Functions

Oligo is rich with water soluble fiber which acts as nutrients for the good L-Bifidus bacteria. Oligo enhances the growth of the beneficial L-Bifidus bacteria within our intestinal systems and hinders the growth of dangerous bacteria in our intestines. This will enhance the stomach and intestinal systems for optimal nutrient and mineral absorption, (especially Calcium and Magnesium) while enhancing the intestines' toxin cleansing functions. Oligo also activates the bodies' cellular growth, anti aging - slowing down the aging process, enhances the immunization system, anti-cancer, prevention and a treatment for diabetes, protects and cleanses the body's internal system, reduces blood cholesterol, balances fatty acids and blood sugar levels, improves the body's pH levels, activates the immunization system, blood cleansing, prevents constipation and piles, fights fatigue. Oligo is low calorie, does not increase internal body heat and enhances the intestinal digestive and bowel systems.

Maca Oligo Functions
