

Superzymes Production Process...

1. Various types of organic fruits and vegetables.

2. Washed and cut the fruits and vegetables, then put in a ceramic jar.

3. Fermentation method – made of high quality yeast, unique good bacteria is used for the production of good enzymes.

4. After 2 years processed through traditional fermentation and formulation method. Filtering been done 3 times.

5. With proper fermentation, minerals, vitamins, proteins, nutrients and other vitamins in plants can be extracted into essence.

6. Extract the essence form enzymes – strict quality checks performed. It obtained laboratory reports of Food & Drug Administration International through over 443 types of toxic does not contain toxins.

7. Canning and packaging done. Production run are meet the international standards of ISO and GMP Malaysia. Do not afraid the expired date, there are more fragrant and higher its value.

8. Obvious effects, unique taste, sour, sweet and fragrant, seems to taste like wine, your body will feel hot, but does not contain any alcohol. Store in cool and dry place, can not be stored in the refrigerator, as this will cause the enzymes hibernate and reduce the effects of enzymes reproductive. Safe to use.

All Life Begins... With Enzymes.

Enzymes are substances that present in all living cells, it launched the activity of living cells, it showed many signs of life, without enzymes, the sperm and ovum can not be fertilized, the plants also can not perform photosynthesis.

What is Enzymes ?

The enzyme is a protein that is important and impressive. All the reactions in our body are depends on the enzymes. Although it is a microorganism that can not visible by naked eye, but it can break down proteins, vitamins and minerals; or built their power to produce thousands of times more powerful. Even a drop of tears, saliva, blood or cells, all containing enzymes. In short, the fertilization of the sperm and ovum to the formation of a new life also depends on the enzymes, since birth, the function of the human body is dependent on the enzyme. Enzymes can be considered as a source of health, or the source of life.

THE ESSENCE OF GREEN

Alkaline Foods Formula

Quality Assurance From
(FDA) Food and Drug Administration International

100%

Unique Alkaline Foods

For your understanding, acidic body is favored habitat by all the germs of disease. But everyday we eat a lot of acidic foods, such as meat, seafood, fast food, snacks, soft drinks and others. Therefore, we are advised to choose foods that are alkaline, such as, fruits and vegetables so that your body can be balanced in the state of low alkali and stay away from all the germs of disease infection.

CY 2000 is proud to introduce the ultimate combination of Superzymes which is alkaline food that contains Noni fruit + Seaweed + 23 kinds of vegetables + 24 kinds of fruits.

Blood pH and Vascular Changes

正常健康的人，其酸碱值约在 7.4 (弱碱性)

For healthy people, the pH is about 7.4 (low alkali)

SUPERZYMES IS RECOMMENDED TO:

- Parents, youth, veterans or the children aged 2 years and above
- Office workers with poor physical
- Diarrhea or constipation
- Patients with chronic
- Patients in the recovery
- People who are obese (with too heavy body weight)

- Women who are pregnant
- Couples who are planning to birth

The Combination of Yin and Yang ...

According to Chinese philosophy, every elements with life on earth can be divided into "Yin" (female) or "Yang" (male), as well as the human body is usually categorized into Yin (cold) or Yang (hot). Therefore, to achieve maximum health status, we should have a balanced diet, which the combination of "Yin" and "Yang" foods that are able to supplying the necessary enzymes to the body.

Now with the help of Superzymes (Yin and Yang fusion) that including Noni fruit + Seaweed + 23 kinds of vegetables + 24 kinds of fruits, food selection is no longer the pressure for all (those with YIN, YANG or non YIN & YANG bodies)

What Is The Difference Between Vinegar & Enzyme?

For your information, the vinegar will always taste sour nor matter how many times you try, while when you drink the enzyme for the first time, you will feel sour, but when you drink it for the second time, you will feel the sour before already less, and other special tastes can be taste, this is because enzyme contains 6 tastes, such as, spicy, sour, sweet, bitter, salty and original taste.

SUPERZYMES INGREDIENTS

Mixed Fruits (Yang Enzymes) +

Mixed Vegetables (Yin Enzymes) -

Seaweed, Cypress Leaf, Cabbage, Chinese Cabbage, Chinese Kale, Carrot, Radish, Choy Sum, Kidney Bean, Green Beans, White Sweet Potato Leaf, Sweet Potato, Beetroot Leaves, Beetroot, Spinach, Watercress, Potato, Lysimachia, White Crane Lingzhi, Wild Ginseng Leaf, Mulberry Leaf, Melon, Bitter Gourd, Pandan Leaf, Honey, Red Cane Juice, Pro-biotic Bacteria.

Do you need ...

Superzymes ??

If can improve your health if you have the health problems or infected with diseases such as the following:

- Lower Back Pain
- Prostate Problems
- Reproductive System Problems
- Hands and Feet Cramps (Cold)
- Dizziness
- Hands and Feet Cold
- Chills
- Anemia
- Low Blood Pressure
- Nocturnal Enuresis
- Footsore
- Poor Memory
- Vision Loss
- Bloated Stomach (Upper Abdomen)
- Bloated Stomach (Lower Abdomen)
- Wind and Indigestion
- Food Poisoning
- Cold
- Rheumatic
- Immunization System Problems
- Digestive System Problems
- Excretion System Problems
- Nervous System Problems
- Liver System Problems
- Blood Circulation System Problems
- Metabolic Problems
- Toxins, Skin Diseases
- Cancer, Acne
- Heat Rash, Hemorrhoids
- Constipation
- Whitish (Yellow)
- Body Heat
- Sore Throat
- Headache Caused By Body Heat
- Toothache
- Tuberculosis (Green Sputum)
- Lymphatic Inflammation
- Flushed
- Shoulder Strain
- Insomnia Due To Heart Too Hyperactivity
- Nightmares Caused By Body Heat
- Emotional Stress
- High Blood Pressure
- Dull Face
- Instability Hormone
- Clumps of Menstruation
- Smell Due To Whitish
- Incontinence
- Lack of Energy
- Forgetful
- Cough (White Sputum)
